Control and organize Azure resources with Azure Resource Manager

46 min • Module 8 Units

Intermediate Solution Architect Administrator Azure Azure Resource Manager

Use Azure Resource Manager to organize resources, enforce standards, and protect critical assets from deletion.

Learning objectives

In this module, you will:

- Use resource groups to organize Azure resources.
- Use tags to organize resources.
- Apply policies to enforce standards in your Azure environments.
- Use resource locks to protect critical Azure resources from accidental deletion.

[Start >](#)[⊕ Add](#)

Prerequisites

- Access to an Azure subscription to complete the exercises
